Gentlemen: I have examined Webster's "Effective English Expression" with some care. The work is a clear, concise presentation of a large amount of practical information in composition, which every student should know before entering college. I like the absence of fads and frills and the abundant presence of common sense. I consider the book well adapted to the needs of high school students.

Very truly yours,

L. H. Brongheon

The Century Studies in Literature For High Schools

JAMES FLEMING HOSIC, Ph.D., General Editor

A series of anthologies of English and American literature for high schools.

The different volumes will be closely correlated and will constitute the basis of a well organized course of study. Each book will represent a distinct step in a natural development, so that when its study has been completed something definite will have been accomplished. Thus direction is given to the instruction and as in history or science a definite achievement is possible each school year.

A Study of the Types of Literature, by Mabel I. Rich, the first member of the series to appear, was published last May. It includes everything essential for the twelfth grade course, both as to reading material and facts, with the exception of material for outside reading, full notes of which are given.

Three more books will be published within the next few months—a ninth grade book, by Dr. Hosic and Mr. W. W. Hatfield; a tenth grade book, by Mr. C. C. Certain; and an eleventh grade book, by Mr. O. B. Sperlin.

Facts and Backgrounds of Literature, by Reynolds and Greever, while not in this series, is in a sense a companion volume. It is a handbook, presenting in ready reference form important data, biographical and literary facts, and social and historical backgrounds bearing on literature as a whole and on each important writer; and brought together in no other similar volume.

THE ENGLISH OF BUSINESS

By

FRANKLYN B. SNYDER and RONALD S. CRANE

Northwestern University

There have been times when words didn't count in business. But those times were rude and that business an unenlightened give-and-take, where mind waited upon muscle.

Today words matter so much in business that a loose and inept use of them infallibly suggests incompetence. That is why large firms are establishing English classes for their employees. Good, but late—the high school should have taught them.

THE ENGLISH OF BUSINESS is primarily a text-book for Juniors and Seniors, with exercises, examples, and suggestions to the teacher. It assumes a knowledge of grammar, but supplies whatever explanations seem unavoidable, and includes, among others, chapters on *A Business Man's Vocabulary*, *The Preparation of Articles and Reports*, *Business Correspondence*, and *Talking in Public*.

What Is the Use of Studying Grammar?

GRAMMAR AND PRACTICE answers this oft repeated question of the high school student most convincingly. It proves to the boy or the girl that he must know the more important terms of grammar and how to use them, in order to manipulate his mother tongue, just as he must know the more important parts of an automobile and how to use them in order to operate the car.

The authors, Susan I. Frazee and Professor C. W. Wells, talk to the student in his own language, forceful and colloquial, and endeavor to arouse a desire on his part to improve his control of language. They cover, in comparatively short space, the fundamentals of grammar necessary for a thorough understanding of the sentence, the outward symbol of the thought. They waste no time with unessential technical elements. With this text there should be no difficulty in securing the results desired for a high school class.
